Report on National Level Elocution Competition

"Technology a boon or curse in pandemic time"

ఇప్పటి Covid-19 వంటి పాండమిక్ కాలంలో సాంకేతిక పరిజ్ఞానం వరమా శాపమా?

We announced this National level Elocution Competition on August 12th 2020. We got 151 registrations from various Degree colleges and intermediate colleges from Andhra Pradesh, Tamilnadu and Telangana. We accepted the submission of Audio/ Video recording of the students till August 16th 6 PM, as mentioned in our message. Some of the participants also resubmitted their recordings, with better presentation skills.

We congratulate all the participants who participated very enthusiastically, to express their opinions on this topic. Most of the participants felt that technology is a boon. Some also mentioned that even though there are some problems in using the technology, it is our wisdom, which should guide us in using the technology in an appropriate way.

One of the participants also mentioned that, this technology should be made accessible to all the deprived sections of students, who are struggling hard with continuing their online education in this time. If they are also provided with necessary gadgets and internet speed, so as to enable them watch online classes, then it will be a very great support for the National Education Policy 2020.

We received 96 audios and videos from the participants. In the first round, 23 audios and video were eliminated as they spoke for less than 40 seconds. In the second Level, based on the clarity of recording and content relevance, 53 audio/video were eliminated. In the third level the remaining 14 audio/videos are examined. All these participants have done a great job in presenting their content. Based on our criteria, our judges finally selected 4 participants as winners for the cash prizes as follows:
